An avidity to punish is always dangerous to liberty. It leads men to stretch, to misinterpret, to misapply even the best of laws. To make one's own liberty secure we must guard even our enemies from oppression. He who violates this rule establishes a precedent, that will reach himself.

It is one year since the courageous and inspiring speeches contained in this pamphlet were made by the Presidential and Vice-Presidential candidates of the Socialist Workers Party. Yet they retain their full validity today. Moreover, the events of the past year, as the reader can judge, have made these speeches even more timely and telling.

The candidates of the Socialist Workers Party, in the present New York City election campaign, base themselves completely on the ideas contained in these speeches.

LAMAR JEFFERS
*United States Representative from Alabama*

THERE has long been an urgent need for some governmental agency to keep in constant contact with the activities of communist groups in our country, composed largely of aliens who openly advocate the overthrow of our democratic form of government by force and violence. When Congress undertook its investigation, it was generally understood that our government already had such authority as might be necessary to protect itself against any such alien conspiracies and to keep itself fully informed of the activities of those who might be guilty of treasonable action against our institutions. When it was learned that no agency of the government had the funds or the authority to act and after a committee had made extensive investigations into such activities, it became clear to those familiar with these conditions that some remedial legislation along this line was absolutely essential.

I therefore introduced a bill in the 71st Congress which would have provided that any person guilty of advocating or promoting the overthrow of the government by force and violence would be guilty of a crime, and providing for fine and imprisonment for any one so convicted. Another bill, which might be properly called a companion bill, introduced by my colleague, Representative Martin Dies of Texas, would provide for the deportation and exclusion of alien communists. My bill would automatically give much-needed authority to the Department of Justice to check up carefully on the activities of all subversive groups and to be prepared in case of emergency to take the necessary steps for the protection of our institutions and our government. In the meantime it would give these officials the opportunity to prevent the continued spread of communism and communist propaganda in the United States by the apprehension and conviction of any communist leaders who might be carrying on treasonable activities against the government.

The bill failed of enactment in both the 71st and the 72d Congresses, although supported by practically all patriotic organizations. I reintroduced it in the 73d Congress (H. R. 1611), and it is now pending before the Judiciary Committee of the House of Representatives. If it is to receive favorable action there, it will be necessary for all interested organizations to actively support it and to make requests of the Chairman of the Judiciary Committee, as well as their own Representatives and Senators, that they cooperate in securing favorable action before the adjournment of this Congress.

Since the original introduction of this bill, the activities of the communists have rapidly increased in practically all sections of our country, and the *Daily Worker* is constantly carrying on a vicious and concerted campaign, as the official organ of the Communist Party of the United States, to organize all its affiliated groups in a ruthless campaign against the govern-
